

ASKS DIRECTORS SIGN AGREEMENT

In a letter written to Chairman Marston Campbell, of the Harbor Commission, General Manager L. A. Thurston, of the Hilo Railroad Company, announces that he has requested the directors of the road to sign the Hilo wharf agreement with the Territory. Campbell expects to receive the document either today or tomorrow.

All the necessary data in connection with the building of the wharf is now being compiled by the Public Works Department and with this will also be incorporated the data gathered by the Hilo road when it was proceeding independently of the Territory to build a wharf.

The main difference in the plans of the railroad and that of the Harbor Commission is that the wharf will be 1400 feet long instead of 800, as planned by the road. Provision is to be made for sugar warehouses, but these will probably not be built under the present appropriation.

THEY INJURE CHILDREN

Cathartics and Pills and Harsh Phys. ics May Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics, and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea, and distressing after-effects, and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associated bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really, in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages: 26 tablets, 25c, and 50 tablets, 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Benson, Smith & Co., Ltd., Fort and Hotel streets.

BIJOU'S BILL IS BEST EVER TONIGHT

The Bijou is still the attraction of the city in the amusement line. There will be added attractions there tonight when Hughes and Prior make their bow to the public. These two clever people are headliners and at the top of their profession as acrobats and equilibrists. Advance notices from Australia, where they have been showing, give most creditable accounts of their entertaining stunts.

Vandeville with the best of moving pictures and the Musical Reeves, backed up with Schoene Tripp and Schoene and the colored artists, who are fun-makers from Funville, complete a program that ought to be good enough for anybody.

Hen Wise and Katie Milton are still on deck at the Empire with a bunch of funny things to say every night. There will be a change of program tonight and for the rest of the week. Grant and DeHeard will have a lot of new things to say and do this week, and added to this there will be a lot of new pictures shown.

FENNELL PLEASED WITH HIS INVESTIGATION

Liquor Inspector W. P. Fennell, who returned last Friday from the States on the Sierra, is greatly pleased with the result of his short investigation which he made, while in the mainland cities. He said that in his long talk with Chief of Police Volmer, he found that the methods which he has been carrying on here in making raids on blind pigs, were being used there by the officials.

Fennell said that while in Oakland, Volmer told him that it would be impossible for him to keep down blind pigs were it not for the employment of informers. In San Francisco, continued Fennell, the police send out well dressed men and women for the purpose of catching the illicit sellers of liquor.

SAYS CHINA WILL BE SOON PATTERNED AFTER THE U. S.

That the great ideal of the Chinese revolutionists is to become as Americanized as possible, and to this end they are placing large orders for American clothes, is the statement made by L. D. Mandell, one of the partners in the firm of K. Mandell & Co. of Hongkong, who was a through passenger on the steamer Korea. Mr. Mandell gives some interesting facts in connection with the state of things in China now, and through his association with Chang, the richest man in China, and who is backing the revolution, is able to tell something of the inside of what is happening and what is likely to happen.

"Trade just at the present time," stated Mr. Mandell, "is dead, as we are all waiting to see what is going to happen. In a few years, however, there will be an enormous volume of business transacted between the United States and China. The whole tendency of the Chinese people at the present time is to become American. The average Chinese will have nothing but American goods. They like the style in which the clothes are cut and will not stand for the small English clothes. In shoes they all want the very lowest cut, and at the present time, even in spite of the uncertainty, there is a large import business being done in the clothing line."

"Stetson hats are finding great favor and most of the men insist on wearing them. They are selling round about sixteen to seventeen dollars each, and Chinese whom you would think too poor to afford them are buying them up as fast as they can be brought in."

A Waiting Policy.

"As to the policy of the revolutionary government and the general lines upon which China will go in the future, from what I understand it is to be a waiting one. Chang, who is probably the richest man in China today, and who is backing the revolution right through, is in favor of this. 'We will first of all build railroads through the country,' he told me, 'then we will organize an army. Unless we have the railroads, an army is not much good, for we can not move it quick enough to be of any use. When we have done this we will start to build our warships. When all this is complete we will reach for Japan. But it will take time. There is no hurry and we must do things slowly.'

"This I think just about puts in concrete form the situation at the present time."

"Just before I left Chang was mak-

ing arrangements to issue \$15,000,000 worth of bank notes. As there was some doubt as to whether the Bank of England and the other banks would recognize them, he deposited the whole sum in gold. This will give an issue for Canton and the surrounding province and will relieve the situation greatly."

Reforming Pirates.

"As you must have heard this side, there has been no killing of white people with the exception of one captain of a ship, and this was done by pirates. Before the revolution broke out the word was sent throughout China that on no account must any white people be killed, and they have kept to this throughout."

"At the same time the pirates have been giving a great deal of trouble and for a time the authorities did not know what to do with them. At last Chang struck a proposition that settled the question once and for all. He gathered in all the pirate chiefs and made them high officials. He paid them a good salary and gave them uniforms in accordance with their ranks. Now they stick out their chests and think they are big men. Incidentally, the river pirate trade has practically gone out of business."

Vanishing Viceroy.

"The amount of money that has been taken out of China by absconding viceroys must be enormous. In Canton the viceroy turned over the city to the revolutionists without a murmur. At the same time he collected \$2,000,000 and carried it with him to Japan, where he is at the present time. He disguised himself by cutting off his queue and putting on American clothes. This has been the practice right throughout. Whenever a viceroy gave over the city he cleared out with a big bunch of cash."

Preserve Their Queues.

"It is not safe for a man to wear a queue in Canton at the present time, and if he does appear in the street with one on, the people will catch him and cut it off. The cutting of the queues is affecting the hair industry very much. This was one of the largest industries in China, and now there is a threatened shortage that will affect the whole world."

"The Chinaman when he cuts off his queue now, instead of selling it, invariably sends it home to his mother. The old lady puts it away in a nice little box and then when the son dies it is buried with him. People who are in the hair business predict a veritable famine in the near future."

TEN YEAR CASE YIELDS

We copy the following from a letter from D. O. Robbins, M. D., Springfield, S. C.:

"I called on Mr. J. A. Thompson, who was afflicted ten years ago with chronic Bright's Disease. It gradually grew worse until two years ago he was bedridden. His family gave up hope. Tried the Renal Compound using about a dozen. Now up and much improved. Is well known. You can use this item, as he gives this privilege. His son is a prominent dentist."

There is no question about this patient having the chronic and supposed incurable form of kidney disease. Some late writers declare the sixth month puts the disease over the deadline. Physicians declared the chronic stage in this case was established ten years ago. Also no one that patient was bedfast for two years before taking the treatment. This makes up an absolutely hopeless case under the old regime.

We have declared over and over that there is some hope in even old and extreme cases, for a certain percentage of them yield as in the above instance.

What excuse under heaven can be given for holding people who have chronic kidney disease to certain death on Digitalis, Nitro-Glycerine and Basham's Mixture when there is hope through the simple addition of this new bland and simple treatment. It does not conflict with physicians' prescriptions. Cases not serious enough to be in the hands of physicians usually yield to Fulton's Renal Compound unaided. We desire to hear from and advise with cases not yielding."

At all druggists.

CLEVELAND WILL BE ENTERTAINED

The Ernest Kaal Quintette, the Promotion Committee, the Public Service Association and the Outrigger Club have each made appropriations for the entertainment of the Cleveland tourists.

At a meeting of the Outrigger Club on Saturday a letter was read from the promotion committee stating that fifty dollars had been appropriated for the entertainment of the guests. Ernest Kaal was approached in regard to the music, and stated that his organization would contribute twenty-five dollars to assist in the entertainment. The house committee of the Outrigger Club will begin today arranging the program for the Cleveland tourists. It will be unique and native in its features. The action of Kaal and his organization was particularly appreciated, as it showed that the Hawaiian people are also eager to assist in the welcoming of the visitors to the islands. Arrangements will probably be completed today for the entertainment of the visitors for the two days and the part each of the organizations will take in assisting.

MORGAN'S JAPANESE BRIDE WAS IN CITY

When the Tenyo, Mary passed through here recently on her way to the coast, there was on board a pretty Japanese girl by the name of Mrs. George D. Morgan. A San Francisco paper tells the reason for the trip as follows:

George D. Morgan, nephew of J. Pierpont Morgan, who some years ago created a furore in this country by marrying a Japanese woman, arrived at the Palace Hotel yesterday on the Overland Limited to await the arrival of his wife, who will arrive on the Tenyo Mary on Thursday. He has reserved a suite of four rooms for himself and wife and servants at the Palace.

Morgan refused to be interviewed or say anything in connection with his visit to San Francisco yesterday. The last time he was in the city he and his bride arrived from the Orient on the Manchuria and were the guests of the Rev. Dr. Clappett of Trinity Episcopal Church, who was a tutor of Morgan some years ago in the East. Morgan will remain here until the arrival of the liner and will depart for the East.

No. 1

Whooping Cough
CROUP ASTHMA COUGHS COLDS

Vapo-Resolene

ESTABLISHED 1879

A simple, safe and effective treatment for bronchial troubles, ending cough. Vapo-Resolene stops the paroxysms of Whooping Cough and relieves Croup at once. It is a boon to sufferers from Asthma. The air rendered strongly antiseptic, inspired with every breath, makes breathing easy; soothes the sore throat and stops the cough, ending catarrhs. It is invaluable to mothers with young children.

Send us postal for descriptive booklet.

ALL DRUGGISTS.

To Croup and Asthma Three Tablets in the throat three times a day. They are simple, effective and antiseptic. Of great value to mothers with young children.

Send us postal for descriptive booklet.

Vapo-Resolene Co.

CHOOSING THE STICK.

A LONG COURTING.

There has just been ended in Leipzig a lawsuit that started four hundred years ago! Getting tired of delay the litigants settled out of court. Able lawyers assure me that there was no excuse for this lingering procedure. They say that no lawsuit should last a day over three hundred years.

WAILUA UP; MUCH DEMAND

Wailua stock went up with a jump Saturday and today, partly owing to the fact that investors are realizing what a low price it has been selling at, and partly because some of these investors tried to make a neat play between Oahu and Wailua.

According to the story told on "the street" as the financial line of march along Fort and Merchant streets is denominated, a number of stock speculators took a flyer in Oahu with the almost sure prospect that it would increase with the stock dividend. They sold Wailua fairly, cheaply and bought Oahu, expecting to sell Oahu at a nice profit and reinvest in Wailua.

The anticipated demand for Wailua sent that stock up and the investors who thought they could get it cheap were disappointed, but many bought at the advance because of its excellent prospects generally.

This was a brisk selling day, with Oahu up to \$6.50 on account of steady demand and Wailua at \$12.50 and ready to go still higher. Oahu also strengthened after a slight slackening last week.

The usual dividends, Hawaiian Commercial 25 cents, Oahu 40 cents, and Honolulu a dollar, were declared today.

MANY ANNUAL MEETINGS SOON

Annual plantation and other allied corporation meetings will begin in a few days, and for nearly a month there will be important meetings almost every day.

The Brewer and Alexander & Baldwin plantations have already called several annual gatherings, and others will be announced from day to day. The "calendar" so far is as follows:

February 7—C. Brewer & Co.
February 14—American Sugar Co.
February 14—Kahuku Plantation Co.
February 15—Hawaiian Sugar Co.
February 15—Oahu Sugar Co.
February 15—Kahuku R. R. Co.
February 16—Honolulu Agricultural Co.
February 16—Kau Agricultural Co.
February 16—Waialua Agricultural and Grazing Co.

Governor Fear is to be present at the opening of the Public Welfare exhibits and will also preside at the conference of Cooperative Philanthropy to be held during the course of the exhibition. The Governor thinks that a great deal of good will be accomplished by this exhibit of the kind having previously been tried out here.

MAID SERVANTS IN A UNION

Female Help in Paris Want 12 Hours a Day and Better Treatment.

PARIS, January 20.—The president of the Maidservants' Union, an organization recently formed, has published some interesting details as to the program of the union, which has already been joined by over seven thousand maidservants.

The servants are agitating for the introduction of a twelve-hour day, but they will work fourteen hours in exceptional cases. They also demand better treatment by employers, no sleeping in kitchens and halls, but the provision of special servants' rooms. Old-age pensions and pensions in case of incapacity for work are demanded and they also claim a minimum monthly wage of \$3.50 for housekeepers, \$5 for chambermaids and \$7.50 for cooks.

Finally they demanded one free afternoon each week, besides one free Sunday afternoon each fortnight, and four weeks' holiday each year, during which wages must be paid. These holidays must be granted quite apart from whether the servants accompany their employers to summer resorts or not.

The servants believe that in a few years, when the organization will be joined by nearly all maidservants, they will be strong enough to enforce all their demands by a general strike.

PHILADELPHIA, Pa. — Rudolph Blankenburg, for many years a leader in reform movements, ran for mayor on the Keystone ticket in an attempt to defeat the nominees of the party organizations. He is a millionaire.
